

Lubrita Truckwash HD

Powerful foam cleaner for cleaning trucks and containers

ST-CLN-5018

Transpoer Cleaners

Properties

Fast acting premium quality cleaner detergent. It's unique product formulation provides a very stable foam cover that is extremely effective; also on vertical surfaces. Truckwash HD leaves a complete shine on the treated surface. Truckwash is safe to use on fiberglass, synthetic material, painted surfaces and rubber. pH value is 13.

Application

Truckwash HD is specially developed for removing the so-called traffic film from transportation vehicles by using high pressure equipment with foam-pistol or in truckwash service centres. Very suitable for removing the most stubborn traffic soiling (international transportation). Preferably do not use in bright sunlight.

Directions for use

Truck Cleaning – Recommended dilution: Roll-Over Truckwash = 2%-3% (1:50-1:33), High Pressure Contact Free = 3%-5% (1:33-1:20), depending on the intensity of the dirt. Apply with high-pressure equipment with foam-pistol and leave for a few minutes. Rinse off with clean water (preferably with medium/high pressure). The use of warm water will enhance the cleaning performance. Pre-Wash – Preferably dilute 5% (1:20). Maximum 10% (1:10) and minimum 3% (1:33). Apply on bumper, hood, mirrors and wheels by using a brush, sponge or spray equipment. Leave for a few minutes. Further clean the transportation vehicle with a transport cleaning detergent.

Environment & Safety

Truckwash HD is biodegradable (28 days Close Bottle Test CO₂ > 60%; 28 days; OECD 301B). Preferably keep from freezing.

Product Features

- Biodegradable
- Safe to use on fiberglass, synthetic material, painted surfaces and rubber
- Rapidly emulsifies with traffic film and all types of deposit to ensure effective cleaning
- Leaves a complete shine on the treated object
- Provides a very active and stable foam cover
